International Conference on

Parkinson's and Movement Disorders

July 08, 2022 | Webinar

PARKINSON'S 2022

July 08, 2022

Opening Ceremony 09.00-09.15

Keynote Forum

09:15-10:00

Title: Neurological Recovery following Traumatic Spinal Cord Injuries

Wagih El Masri | Keele University | UK

10:00-10:45

Title: Comprehensive Integrated Team Approach in Parkinson's disease Management Glove

Agaezi Sonya | Sonya Health | USA

Networking & Refreshment Break 10:45-11:00

Sessions on: Parkinson disease | Stroke Rehabilitation and Recovery | Phytopharmaceuticals for Parkinson's disease

Session Chair: Wagih El Masri | Keele University | UK

11:00-11:25

Title: AUTOTAC is a novel Parkinson's disease therapeutic agent targeting alpha-synuclein aggregates to autophagic-lysosomal degradation

Jihoon Lee | Sanglah National Public Hospital | South Korea

11:25-11:50

Title: Assessment of the memory impairment among young and middle age COVID-19 convalescent persons

Yekaterina Hovhannisyan | Heratsi N1 University Hospital Complex | Armenia

11:50-12:15

Title: The Q58L Mutation of the Androgen Receptor (AR) gene as possible cause of Early Kennedy Disease

Marco Cassone | Hospital Major of Modica Nino Baglieri | Italy

12:15-12:40

Title: The Over-expression of Survivin Could Prevent the Oxidative Stress and Toxicity of Rotenone in SH-SY5Y Cells

Arman Rahimmi | Kurdistan University of Medical Sciences | Iran

12:40-13:05

Title: The association between animal protein sources and risk of Parkinson's disease: a systematic review and dose-response meta-analysis

Hamed Mohamadi | Tehran University of Medical Sciences | Iran

Networking & Refreshment Break 13:05-13:20

Sessions on: Parkinson disease | Stroke Rehabilitation and Recovery | Phytopharmaceuticals for Parkinson's disease

Session Chair: Agaezi Sonya | Sonya Health | USA

13:20-13:45

Title: The effects of transcranial direct current stimulation on gait in patients with Parkinson's disease

Hamzeh Baharlouei | Isfahan University of Medical Sciences | Iran

13:45-14:10

Title: Muscle alterations in a Parkinson's disease animal model

Ana L. Albarraçín | National University of Tucumán | Argentina

14:10-14:40 **Title: Pilot study assessing the effect of Fascial Manipulation on fascial densifications and associated pain**

Kena McDermott | University of Bridgeport | USA

14:40-15:05 **Title: Sagittal Plane Displacements of the Cervico- Thoracic Region and Their Relationship to Pain, Disability, Athletic Performance and Neurophysiological Measures: Implications Towards Patients with Movement Disorders**

Deed Harrison | Ideal Spine Health Centre | USA

15:05 - 15:30 **Title: MicroRNA-based therapeutic approaches for Parkinson's disease**

Liliana Bernardino | University of Beira Interior | Portugal

Video Presentation

15:30 - 15:55 **Title: Facilitators and barriers to the delivery of palliative care patients with Parkinson's disease: a qualitative study of the perceptions and experiences of stakeholders using the socio-ecological model**

Yiping Chen | Shanxi Medical University | China

Keynote Presentation

15:55 - 16:30 **Title: Vibrotactile Coordinated reset Fingertip Stimulation - Treating Parkinson's with a Vibrating Glove**

Peter Tass | Stanford University | USA
